**Subject:** RE: OR CZARA Settlement Agreement Requirements Chart

Hi Gene,

Thanks for telling me you thought the discussion was good. I was worried as we went way over the projected time frame and veered off the subject of 4b's. All discussed seemed very important though. I learned that meeting the requirements of the settlement agreement may not be the same as meeting the intent.

The chart is excellent and will be used as the basis for the conference call. Am I correct that potential products to review/discuss on the call could include the following:

OSDS: Draft rule language

New Development: Final draft guidance document

Forestry/Implementation Ready TMDLs: Additional detail on the prescriptive TMDL process & schedule for implementing the prescriptive TMDL approach throughout the Coastal Nonpoint Program management area which includes a time line for developing new TMDLs as well as updating existing TMDLs.

Thanks for confirming that Bob is from OLCD. I want to make sure all the key folks are invited to the quarterly meetings.

Cheers,

Jayne

Hi Jayne

Bob Bailey is from DLCD (State of Oregon) and has been participating in the CZARA discussions from the beginning.

I have not heard anything back from NWEA, not sure why they needed the information from us. Sorry I didn't send it to you and NOAA before sending it to NWEA, but it seemed accurate and figured we were covered with the term "Proposed Date"

I am checking into our 4B authorities with Larry

Good discussion yesterday, sorry I had to leave abruptly but I needed to get to another meeting on our guidance document for Implementation Ready TMDLs

cheers  
Gene

Thanks, Gene. The chart looks great. Did you hear any response from Nina/NWEA?

Is Bob Bailey from DLCD? If not, who is the contact and should he or she should be included in the June meeting?

Cheers,

Jayne

fyi on an information request from NWEA and the information that we sent

them.

Let me know if you have questions or want to discuss.

Gene

Attached is our current schedule for the CZARA work items.

These were discussed with EPA, NOAA, and DLCD during a conference call in mid-April. We have another conference call with EPA on CZARA in mid-June

Neil and Gene,

Has DEQ prepared and provided to EPA a document that includes the proposed schedule for implementing the Oregon Coastal TMDL approach? According to the settlement, it was due March 31. If so, could you provide it to me?

Likewise, there was a Jan. 31st deadline for additional detail on the approach. Could I obtain that as well?

Thank you,

Nina
